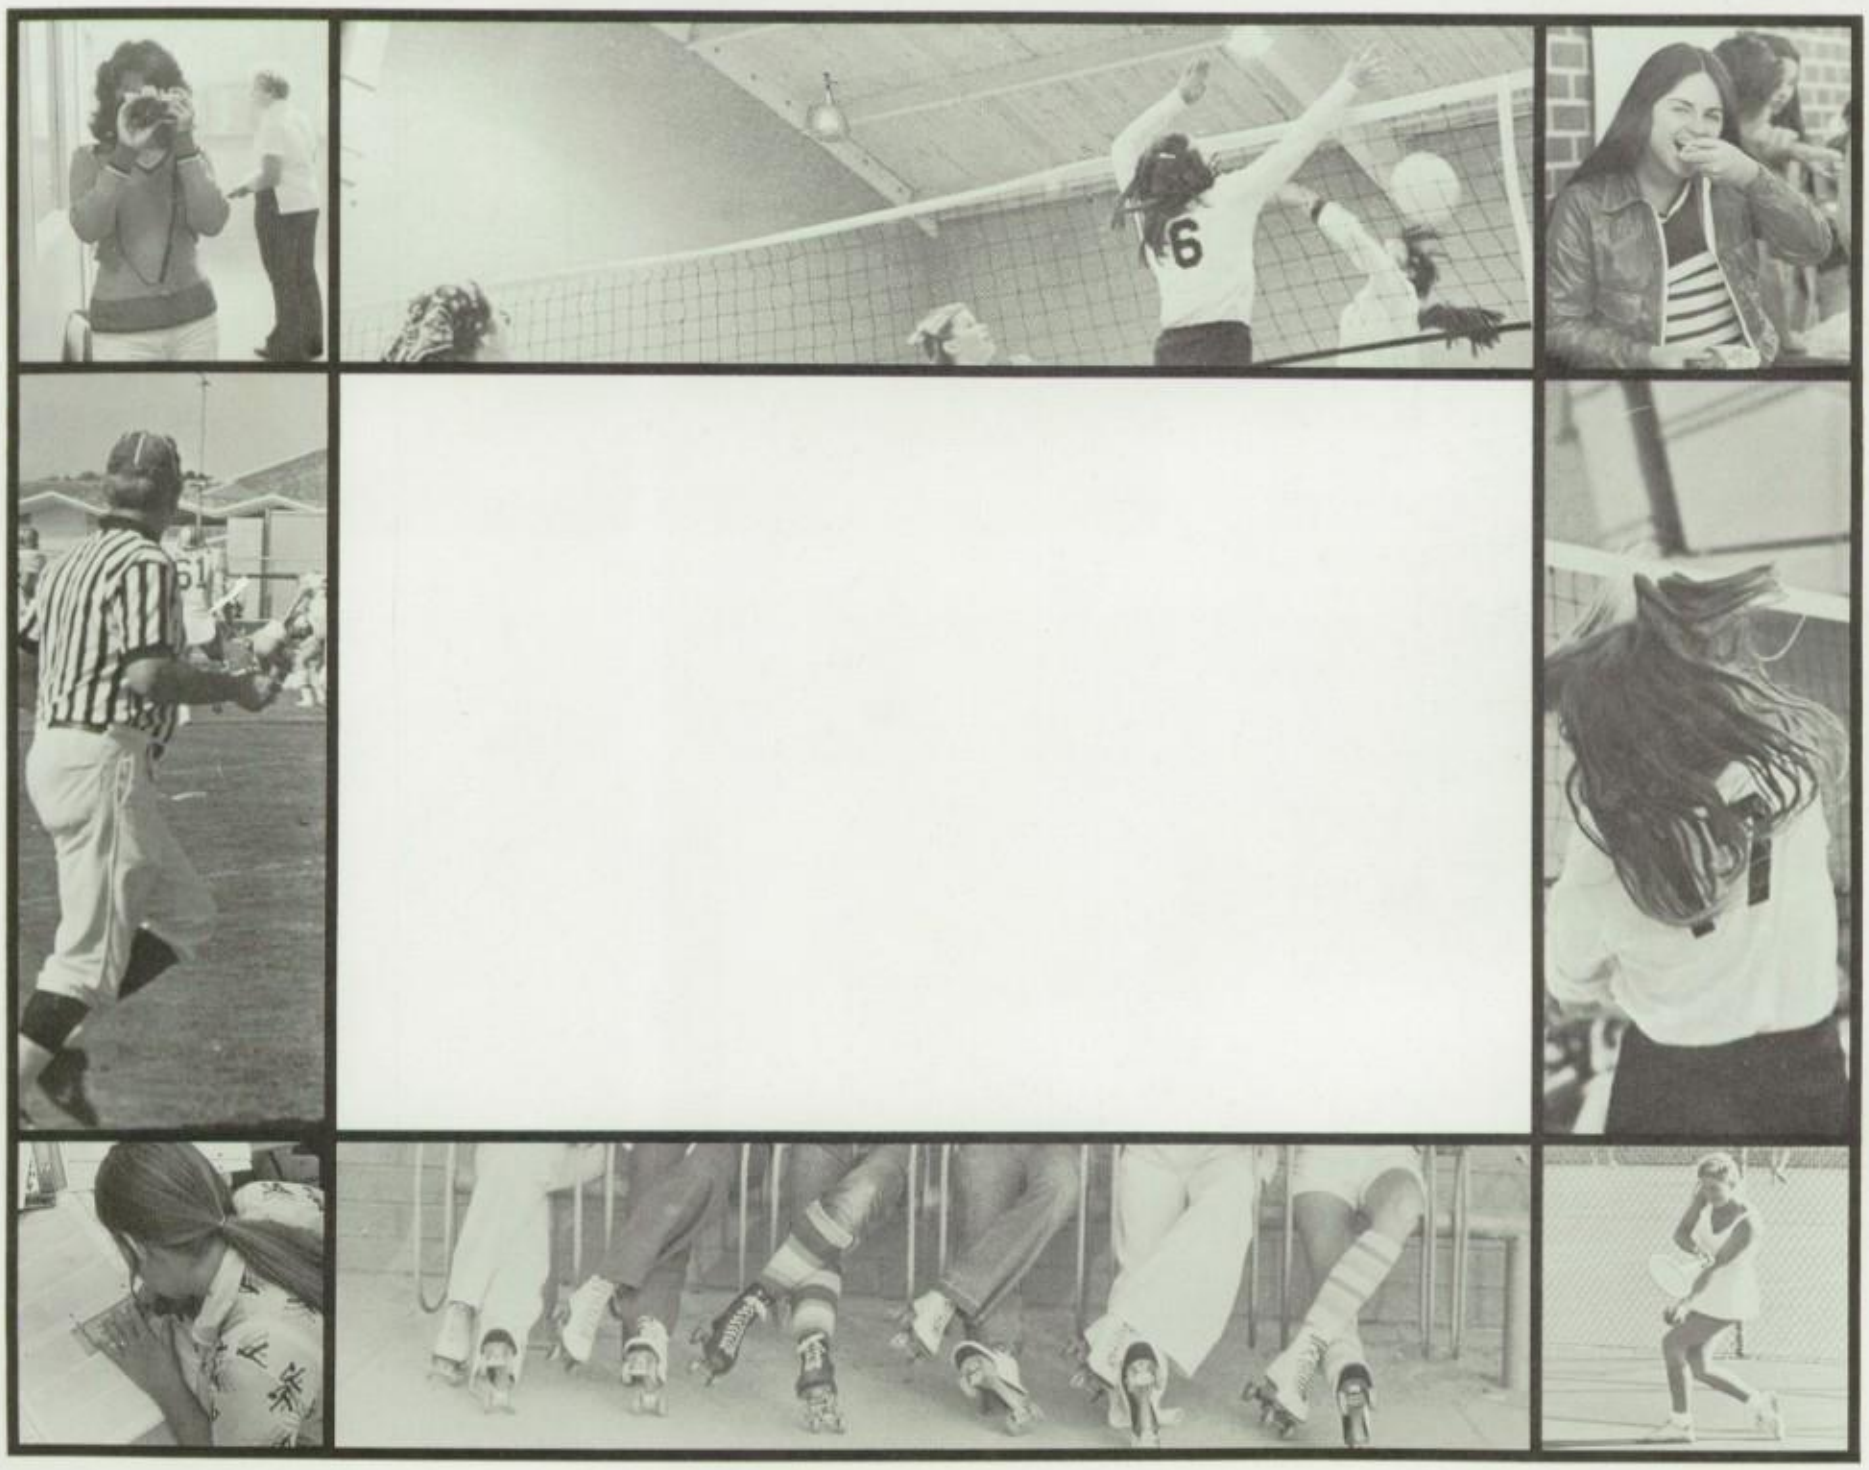
THINGS WE ENJOY



The Varsity Football season turned out a disappointing season but showed a great deal of promise. The youth and inexperience contributed to the losses the Falcons aquired. They ended their season with a record of 4-9. The squad contended in the powerful Ocean League defeating Redondo, Mira Costa, Miraleste, and Torrance.

Captains Jim McGarvey and Don Morrow proved essential factors throughout the entire season, leading the team with confidence, and proficiency. The coaches stated, "The future looks very good for 24 Varsity lettermen will be returning."

Jim McGarvey received the award for "Most Valuable Player," while Dan Hill claimed the "Most Outstanding Linemen" award. Junior Dan Clary took the award for "Most Outstanding Receiver" and Mike Arbanas, received "Most Outstanding Back." For the defensive awards Mike Cherney picked up "Most Outstanding Defensive Linemen" while "Most Outstanding Defensive Linebacker" went to Mike Paloutzian. Only a junior, Don Morrow played outstanding as defensive quarterback. He also excelled in defense and picked up the award for "Most Outstanding Defensive Back." Senior Phil DePrato received the honorable Jim Ickes award, with an "All American Smile."

Pep Club 1975-76 performed with excellence throughout the year. Beginning in the summer with pep club camp, the girls entered into competition winning many awards along the way. The toughest competition came at the annual Disneyland Convention. Flags won 3rd place and Junior Varsity came in 2nd in their class. As a whole, the girls worked together to arouse school spirit at rallys and to further that enthusiasm at the football and basketball games themselves. Because of the special effort put forth by each girl, the pep club earned a high standing on and around our campus.

The Band also performed with excellence. Under the instruction of Mr. R.Power, the band played to entertain the crowd at rallies and concerts as well as football games.

Both Drill Team Captain Laurel Westphal and Drum Mojor Rex Vedder continued throughout the year to lead two fine companies into many fine performances.

With the assistance of a new coach, Timme Smith, the 1975 girls tennis team played their best, but could not overcome the tough competition in the Pioneer League. Despite the unsuccessful season, Varsity players, Vikki Merina and Monica Torres contributed their skills, which greatly improved the team's performance.

The Junior Varsity team turned out a successful season. Outstanding players, Mary Higi, Jana Ackles, and Janet Kissel contributed to the success of the team. Coach Smith stated, "With all of the Junior Varsity team returning next year, the 1976 season should be stronger."

The Aviation Poloists finished strong in League play taking second through good defense and experienced coaching. Although many of this years opponents showed better individual talent, Aviation used team effort and support to produce victories.

With outstanding offensive play by All-League player Gene Oshiro, and forward Mitch Yammamoto, Aviation was able to beat arch rival Mira Costa in a close game. Playing in the toughest of the three leagues in the area, the poloists relied on a good all-around defense by all, and extra help from outstanding goalie Jeff Hunter.

Coach Mike Maurry stated that this years team showed "the best individual effort, but more important, the best team effort in his span of coaching at Aviation."

The 1975 Junior Varsity water polo team worked hard through the season competing in the brutal Bay League. The Falcons ended the season with a disappointing record of 3-9 overall and 0-4 in league.

"It was difficult to play as a unit because the team didn't get to work together, as they were combined with the varsity squad in practice sessions," stated Coach Maurry. Coach Maurry feels no complaints against the female players and believes they compete well in the lower levels of competition. Robert VanKreuningen voted Player of the Year, proved himself as a great team asset.

The Frosh-Soph team led offensively by Steve Kirchner and Joe Chorneau ended their season with an unsuccessful record of 3-9 and 0-4 in league. The Frosh-Soph team started from scratch. Almost every player was new to the sport, however, became strong in each of their positions. Injury also plagued the team with the loss of Keith Crew. Joe Chorneau, voted Player of the Year, gained quick experience and confidence in himself and the team.

The dynamic Aviation Varsity Basketball team captured first place in the Pioneer League. In league play, the Falcons held an almost perfect record, marred only by their first game in which they lost to Miraleste. After that one loss, the Falcons came back with a hot 14 game winning streak. Their first place finish qualified them for the CIF play-offs, in which they advanced to the second round before losing to a strong Mission Viejo team.

The Falcons carried exceptional individual talents. Don Morrow and John Moon, the best guards in the area, made the "All league first team," as did Richard Lull. Matt Tafoya made second team all league and Rob Bates received "Honorable Mention." Junior Don Morrow received the award, "Pioneer Player of the Year." Don Morrow and John Moon proved the most valuable to the Falcon team. The 1976 Varsity Wrestling team worked hard throughout the season developing their skills and techniques under a new coach, Mr. Cartier. Even though the team turned out to be a young one, comprised of mostly juniors and sophomores, they came up with an appealing third place in the respected Ocean League.

The season's matches all turned out to be very close. The Falcons wrestled a tough match against Hawthorne in duel competition, but Hawthorne pulled through to defeat the Falcons 33-30. Jim Webb wrestled his way to the C.I.F. Sectionals but plagued by back injuries, could not compete. Teammate Nelson Imamura, only a junior competed in the C.I.F. finals. Moses Palama, Mike Arbanas, Dennis Kuehn, and Billy Webber also contributed a great deal to the squad.

Excellent play by "Most Inspirational" player Scott Patrick, and "Most Improved" soccer player Chris Stoeble kept up spirit among team members. Yet, as Scott Douglas stated, "We didn't get much cooperation from the administration. After spending so much energy fighting the school, we had very little left for playing soccer. Areas of conflict included such things as, good and more equipment, seventh period P.E. for all players, field lights so practice could continue after darkness, and night games for more spectator participation."

Spirited Sophomores Get Head Start

The Sophomore class, under new officers has everything under control. The little things that they do bring in more and more money that helps them pay for their Junior-Senior Prom. The officers are quite busy this year because not only do they work to earn money but they also in their spare time cheer on the Junior Varsity teams to victory. It's the desire to work and their spirit that makes up the class of 77.

Question of the Century

Is there life on Mars? If there is, we hope this masterpiece of miniaturization will prove it. Built by TRW, it packs into one cubic foot the equivalent of three organic chemistry labs full of equipment that's been designed to determine whether micro-organisms exist in the Martian soil. It also contains the complex electronics needed to gather the data for transmission to Earth. Several weeks after July 4th, 1976, when NASA's Viking (built by Martin Marietta) is scheduled to land on Mars, scientists hope to answer the question that has tantalized men for so long.

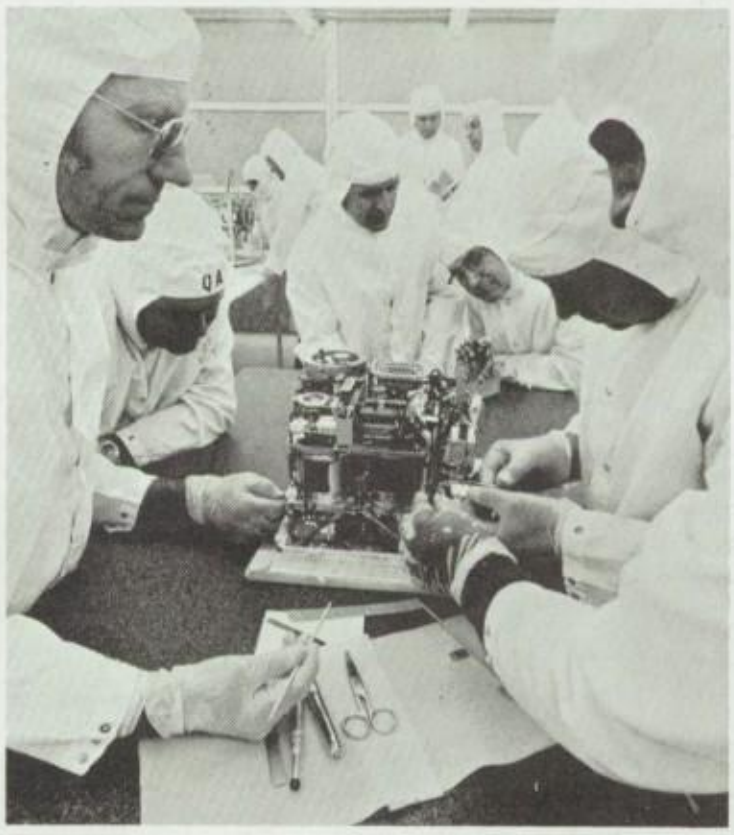
Another TRW-built experiment on Viking will measure the violent winds and cold temperatures of the red planet's tenuous atmosphere. Meanwhile, TRW engineers are working on further experiments designed to probe the hot, dense atmosphere of Venus, later this decade. With Earth's atmosphere "bracketed" by the opposite extremes of these two natural laboratories meteorologists may get new insights into our long-range climatic trends and weather processes.

These experiments are only the latest of many TRW projects designed to help NASA explore the solar system. In 1958, Pioneer 1 was the first spacecraft ever built by a private firm. It showed the shape of the Van Allen belts and measured interplanetary particles and fields. Later Pioneers observed solar disturbances and the solar wind from as far away as the other side of the sun. The most recent Pioneers have crossed the asteroid belt, made close-ups of Jupiter, and sent back more data on the interplanetary medium from record-breaking distances. One is now headed for Saturn and the other will become the first man-made object to leave the solar system.

During the nineteen sixties, TRW built NASA's series of Orbiting Geophysical Observatories, which mapped the Earth's magnetosphere and provided detailed data on phenomena that affect long-distance communications.

We've now started building three High Energy Astronomy Observatories for NASA. Designed to look far beyond our solar system, they'll map sources of X, gamma, and cosmic rays across the entire celestial sphere and then concentrate on the most interesting ones. The results should help answer key questions about quasars, pulsars, black holes, and galactic explosions. They may even throw new light on man's basic theories of energy and matter and on how the universe began.

In skimming the highlights of such projects, it's hard to avoid sounding boastful. But the engineers and scientists who actually do the work have no time for bragging. They're too busy applying the lessons they've learned to new and even more difficult problems. These hard-working people, in fact, are what TRW Systems is all about. If you're interested, we'd like to send you a couple of booklets that give you an overview of our diverse capabilities and more information about the Mars instruments. Just write on your Company Letterhead to:



Building the Viking Lander Biology Instrument involved the use of more than thirty different types of advanced technology.

THE BOYFRIEND

The Boyfriend, this year's fun-filled musical comedy, opened May 14 and ran 15, 21 and closed on May 22. With a cast of 27, the play exposed the talents of many newcomers to the Aviation stage. Scott Godfrey and Stacey Kistler star in the leading rolls as Polly and Tony. Alison Fawett choreographed the dance routines while Mr. Power and the band displayed their talents by playing the music of the 20's. Erin McCallon and Erin Libbert did a great job as student director and producer. Also a special credit to Mrs. Gejer for sewing over 70 fabulous costumes.

The Falcons also competed in and won the "W. A. Goodman Tournament," with pitcher John Joban recieving "Most Valuable Player of the Tournament." Coach Wilson stated, "We couldn't have played a tougher schedule.

Great efforts put out by such players as; John Van Nort, Vince Dipane, John Joban, and Phil Deprato gave the team strength in both defense and offense. Jeff Jabush and Don Morrow also contributed to the successful season.

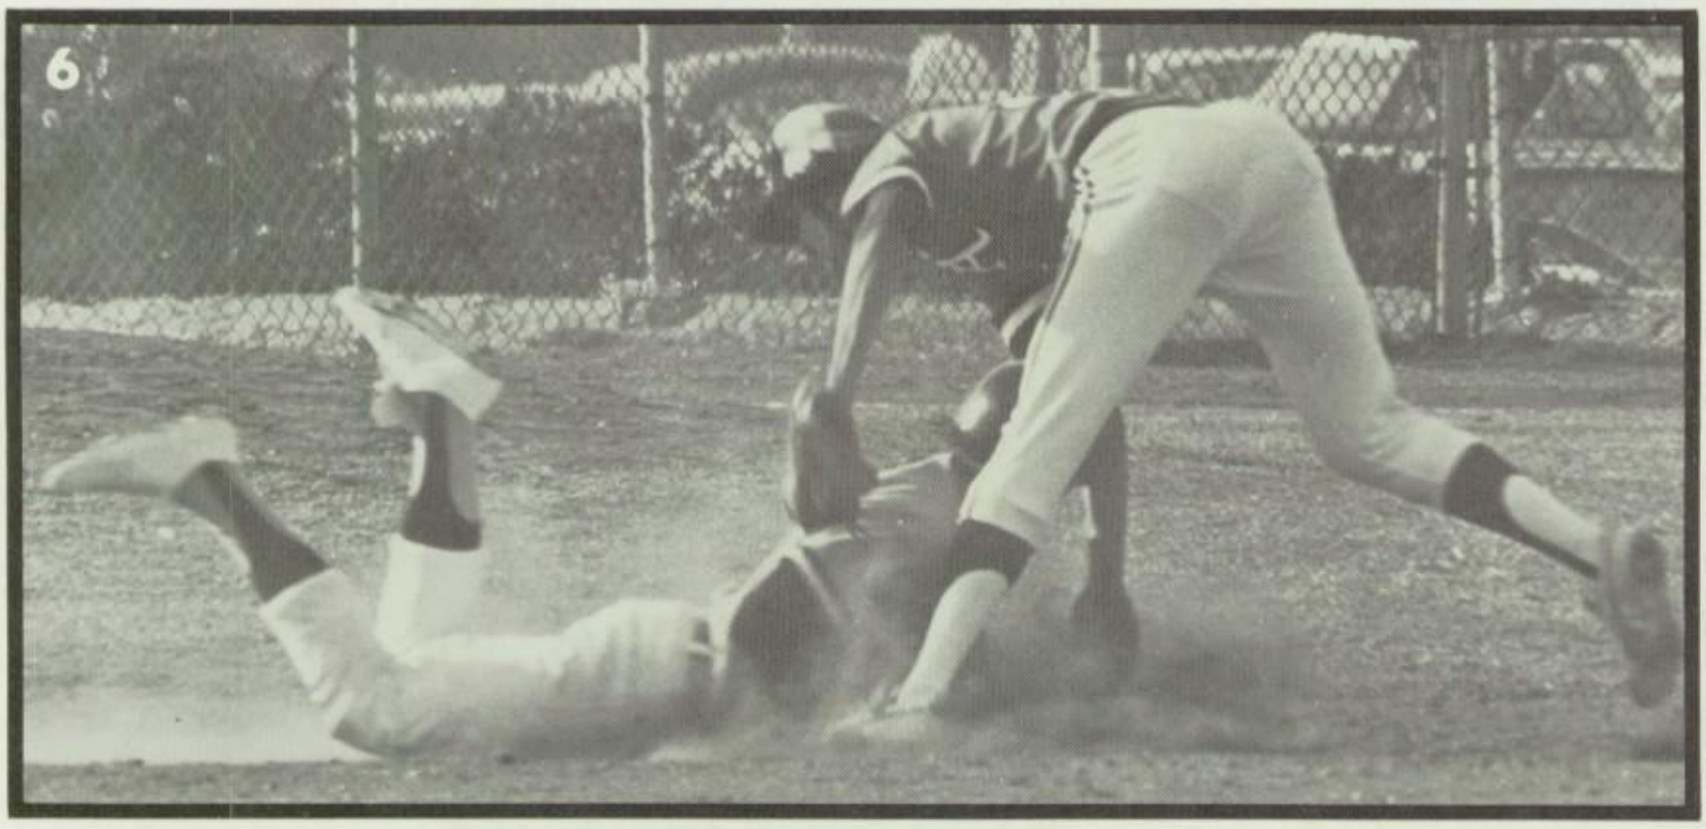
BASEBALL



With a disappointing season the Junior Varsity Baseball Team still came through with a great learning experience. Fantastic individuals such as Frank Wicks, Terry Magee, Phil Machado, Bobby Cayton, Brian Kummer, Henry Vance, and Dave Herrin did very well. With an elbow injury Randy Ells never got back to his strength and ability, but held up the rest of the season. Coach Striff stated, "Many of these young athletes will have the opportunity to play Varsity next year and do extremely well on the team."

Good team effort was the reason for the 1976 Varsity Volleyball team's good season. With many Juniors returning from last season with a year of experience, the Falcons were able to work more as a team this year. Outstanding play by Rich Lull, Chas Meyers, Pete Zimmerman, and Rob Bates added much to the team's success.

The Junior Varsity team had many high points through the season. With excellent play by Kyle Stark, Gary Grantham, and Tony Ferguson the team was able to beat arch rival Mira Costa late in the season. This was a great accomplishment for the Junior Varsity team.
